ELEMENTS OF INTEREST FOR COURSE LEARNING
Justification of contents
The subject "Scientific and technical communication" teaches various aspects of the transmission of scientific information to scientific audiences and also to non-scientific audiences such as farmers, technical advisers, policy makers, and administrators. Students are taught how to prepare scientific and technical documents, posters, abstracts and to make oral presentations. The subject also teaches how to locate and manage scientific information, and how to prepare research proposals.
Other courses related
This subject is related to all other subjects of the Masters.
